BOND ■

Objective and Investment Policy

Seeks to increase the value of your investment and provide income over the recommended holding period.

The Sub-Fund invests primarily in a broad range of investment grade bonds of eurozone issuers, including governments and corporations, and in money market securities. These are denominated in euro or in other currencies, provided that the currency exposure is hedged back to the euro. The Sub-Fund aims to reduce interest rate risk through the use of floating rate bonds, short-term bonds and interest rate hedging techniques using derivative instruments such as interest rate swaps or futures. The Sub-Fund seeks to maintain interest rate duration in the range of -2 and +2 year. The Sub-Fund may invest up to 35% of its assets in below-investment grade bonds, excluding securities unrated by an international credit rating agency. The Sub-Fund may invest up to 20% of its assets in asset-backed securities, and up to 10% in contingent convertible bonds. The Sub-Fund may invest in subordinated securities primarily by corporate issuers based in the eurozone. The Sub-Fund may use derivatives to reduce various risks, for efficient portfolio management or as a way to gain exposure to various assets, markets or income streams.

Benchmark : The Sub-Fund is actively managed. The Euro OverNight Index serves a posteriori as an indicator for assessing the Sub-Fund's performance. The Sub-Fund also uses the composite benchmark 25% ICE BofA ML Euro Non-Financial High Yield Constrained BB Index; 25% ICE BofA ML Euro Subordinated Financial Index; 50% ICE BofA ML Euro Corporate Large Cap 1-3 Yrs Index and as a reference for calculating and monitoring its relative Value-at Risk. There are no constraints relative to those benchmarks restraining portfolio construction.

Management Process : The Sub-Fund integrates Sustainability Factors in its investment process and takes into account principal adverse impacts of investment decisions on Sustainability Factors as outlined in more detail in section "Sustainable Investment" of the Prospectus.

The investment manager uses a combination of market analysis and analysis of individual bond issuers to identify those bonds that appear to offer the best return for their risk level.

This is a non-distributing unit class. Investment income is re-invested.

The minimum recommended holding term is 3 years.

Investors may sell on demand on any business day in Luxembourg.

Risk Indicator (Source : Fund Admin)

Lower Risk

Higher Risk

The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you. Additional risks: Market liquidity risk could amplify the variation of product performances. This product does not include any protection from future market performance so you could lose some or all of your investment. Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Amundi S.F. prospectus.

SRI Terminology

Socially Responsible Investment (SRI)

The SRI expresses sustainable development objectives in investment decisions by adding Environmental, Social and Governance (ESG) criteria in addition to the traditional financial criteria.

SRI thus aims to balance economic performance and social and environmental impact by financing companies and public entities which contribute to sustainable development whatever their business sector. By influencing the governance and behaviour of stakeholders, SRI promotes a responsible economy.

ESG criteria

The criteria are extra-financial criteria used to assess the Environmental, Social and Governance practices of companies, states or local authorities:

"E" for Environment (energy and gas consumption levels, water and waste management, etc.).

"S" for Social/Society (respect for human rights, health and safety in the workplace, etc.).

"G" for Governance (independence of board of directors, respect for shareholders' rights, etc.).

SRI according to Amundi

An SRI portfolio follows these rules :

- 1 - Exclusion of F and G scores¹
- 2 - Overall portfolio rating above the benchmark index/investment universe rating after exclusion of 20% of the lowest rated issuers
- 3 - ESG rating for 90% minimum of portfolio stock²

¹ If an issuer's rating is downgraded to E, the manager has a period of three months in which to sell the security. A tolerance is authorized for buy and hold funds.

² Outstanding securities in terms of ESG criteria excluding cash assets.

³ The investment universe is defined by the fund's reference indicator. If the fund does not have an indicator, it is defined by type of security, geographic zone and investment themes and business sectors.

For more information, we invite you to consult the fund's transparency charter, which is available on the management company's website and on the AFG website <http://www.afg.asso.fr>.

BOND

Focus on Environmental, Social and Governance key performance indicators

In addition to the overall ESG assessment of the portfolio and the E, S and G dimensions, the manager uses impact indicators to assess the ESG quality of his portfolio. Four representative indicators of Environment, Social, Human Rights and Governance have been identified. The manager's minimum objective is to deliver a quality score higher than that of the index on at least two of the indicators.
For these 4 indicators, the total for the portfolio/investment universe is equal to the companies' average for these indicators adjusted for their weight in the portfolio/investment universe.

Sources and definitions

1. Environmental Indicator / Climate Indicator: Carbon emissions intensity (in tCO₂ per million euros invested). This data is provided by Trucost. It corresponds to the annual emissions of companies and is expressed in tonnes of CO₂ equivalent, i.e. it includes the six greenhouse gases defined in the Kyoto Protocol, whose emissions are converted into global warming potential (GWP) in CO₂ equivalent.

Definition of scopes:

- Scope 1: All direct emissions from sources owned or controlled by the company.
- Scope 2: All indirect emissions induced by the purchase or production of electricity, steam, or heat.
- Scope 3: All other indirect emissions, upstream and downstream of the value chain. For reasons of data robustness, Amundi has chosen to use emissions from activities upstream of Scope 3
- Source: Trucost EEI-O model (input/output model extended to the Trucost environment).

2. Indicator of human capital development and protection: This indicator takes into account the company's investment in human capital development (training, career management) and working conditions, particularly in terms of health and safety. Data source: Refinitiv.

3. Indicator of community engagement and human rights: This indicator aims to promote the development of local communities. Participate in industry initiative groups to promote best practices related to the company's direct environment in developed and emerging countries. And ensure respect for fundamental human rights, including the right to individual freedom (especially in countries where this is not guaranteed). Prohibit forced labor and discrimination. Source: Refinitiv.

4. ESG strategy indicator: This indicator takes into account the integration of environmental, social, and governance factors into the company's strategy and the operating procedures of its governing bodies. Data source: Refinitiv.

Investors should read the relevant Singapore IM before deciding to invest in the Restricted Schemes. The units/shares offered under the Restricted Schemes as set out in the relevant Singapore IM are not authorised or recognised by the MAS and are not allowed to be offered to the retail public. Accordingly, this document and the material contained within, may not be circulated or distributed, nor may the relevant units/shares be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 304 of the SFA, (ii) to a relevant person pursuant to Section 305(1), or any person pursuant to Section 305(2), and in accordance with the conditions specified in Section 305 of the SFA, or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA. By accepting receipt of this document and any other document or material issued in connection with the offer or sale of the shares/units, a person (within the meaning of Singapore law) in Singapore represents or warrants that person is entitled to receive such document in accordance with the restrictions set forth above and agrees to be bound by the limitations contained herein. Distribution/dividends (if applicable) are not guaranteed unless otherwise stated in the dividend policy for the relevant share class/class contained in the relevant Singapore IM. This document and the Singapore IM is not a prospectus as defined in the SFA and, accordingly, statutory liability under the SFA in relation to the content of prospectuses does not apply, and the offeree/an investor should consider carefully whether the investment is suitable for him. The MAS assumes no responsibility for the contents of this document. This document has not been reviewed by the MAS.
