Objective and Investment Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation. The Sub-Fund has the flexibility to invest in a broad range of income-producing securities from around the world, including in emerging markets. This may include equities, government and corporate bonds and money market securities. The Sub-Fund's bond investments may be of any quality (investment grade or below) including up to 20% in asset-backed and mortgage-related securities, and up to 20% in convertible securities. The Sub-Fund may invest up to 10% in contingent convertible bonds and may also seek exposure to real estate. The Sub-Fund may invest without limit in debt and equity securities of non-U.S. issuers. Emerging markets may represent up to 30% of the total assets, including up to 5% in Chinese bonds denominated in any currency and dealt in China (directly on CIBM or indirectly via Bond connect) or in other markets. The Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS. The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, equities, interest rates and foreign exchange). **Benchmark** : The Sub-Fund is actively managed and uses the ICE BofA US 3-Month Treasury Bill Index a posteriori as an indicator for assessing the Sub-Fund's performance and, as regards the performance fee benchmark used by relevant share classes, for calculating the performance fees. There are no constraints relative to any such Benchmark restraining portfolio construction. The Sub-Fund has not designated the Benchmark as a reference benchmark for the purpose of the Disclosure Regulation. **Management Process** : The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. The investment manager pursues a flexible allocation strategy which seeks to identify attractive opportunities for income and capital appreciation. In addition to constructing a portfolio of securities based on that strategy, the investment manager uses tactical asset allocation and hedging strategies in an effort to eliminate unintended risks and reduce volatility. The Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of the investment universe.
