BOND

Objective and Investment Policy

Seeks to increase the value of your investment and to provide income over the recommended holding period. Investments: The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation. The Sub-Fund invests at least 75% of its assets in a diversified portfolio of "Emerging Markets Green Bonds" denominated in USD or other OECD Currencies. "Emerging Markets Green Bonds" are defined as debt securities and instruments issued by companies that are headquartered, or do substantial business, in an emerging country, which fund eligible projects meeting the criteria and guidelines of the Green Bond Principles (as published by the ICMA). Whilst the investment manager aims to invest in ESG Rated securities not all investments of the Sub-Fund will have an ESG rating and in any event such investments will not be more than 10% of the Sub-Fund. The Sub-Fund may also invest in bonds issued by companies, governments or institutions from any country that are denominated in other currencies and may invest up to 80% in high yield bonds. The Sub-Fund may also invest in other types of bonds, in money market instruments, in deposits, convertible bonds up to 25%, ABSs and MBSs up to 20%, UCITS/UCIs up to 10%, distressed securities up to 10% and contingent convertible bonds up to 10%. The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit). The Sub-Fund may use credit derivatives (up to 40% of net assets).

Benchmark: The Sub-Fund is actively managed by reference to and seeks to outperform (after applicable fees) the JP Morgan EM Credit Green Bond Diversified Index (Hedged to USD), (the "Benchmark") over the recommended holding period. The Sub-Fund is mainly exposed to the issuers of the Benchmark, however, the management of the Sub-Fund is discretionary, and will be exposed to issuers not included in the Benchmark. The Sub-Fund monitors risk exposure in relation to the Benchmark however the extent of deviation from the Benchmark is expected to be material. **Management Process:** The Sub-Fund's sustainable investment is focused primarily on climate and environmental objectives by investing in Emerging Markets Green Bonds, which fund eligible projects meeting the criteria and guidelines of the Green Bond Principles (as published by the ICMA). The investment process identifies the best opportunities both in terms of financial prospects as well as their ESG, in particular environmental, characteristics. The Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of its investment universe.

Green Bonds Lexicon

Green/Sustainable/Social Bonds breakdown

Green bonds are fixed income instruments for which the proceeds are specifically designated for projects with clearly defined environmental benefits. Eligible projects include, but are not limited to, renewable energy, energy efficiency (including efficient buildings), sustainable waste management, sustainable land use, biodiversity conservation, clean transportation and clean water. The issuer should outline the decision-making process it follows to determine the eligibility of an individual investment in the legal documentation for the security:

- 1) Use of proceeds
- 2) Project evaluation and selection
- 3) Management of proceeds
- 4) Reporting

Impact

Avoided emissions :

"Estimate of emissions that would have been released if a particular action or intervention had not taken place. For example, the use of insulation in premises might reduce the consumption of gas to heat the building with the consequential reduction of GHG emissions from the property. In order to determine the level of emissions avoided through the use of certain goods or services, it is necessary first to establish what the level of emissions would have been had the goods or services not been used. This level is known as a baseline level. The avoided emissions are quantified by reference to the difference between the baseline level and level of GHG emissions achieved through the use of the goods or services."
*Source : CDP

Impact metric :

Tonnes of CO₂ equivalent (tCO₂e) per 1Mn invested (in portfolio currency).

ESG criteria

The criteria are extra-financial criteria used to assess the Environmental, Social and Governance practices of companies, states or local authorities:
"E" for Environment (energy and gas consumption levels, water and waste management, etc.).
"S" for Social/Society (respect for human rights, health and safety in the workplace, etc.).
"G" for Governance (independence of board of directors, respect for shareholders' rights, etc.)

ESG Terminology

ESG criteria

The criteria are extra-financial criteria used to assess the Environmental, Social and Governance practices of companies, states or local authorities:
 "E" for Environment (energy and gas consumption levels, water and waste management, etc.).
 "S" for Social/Society (respect for human rights, health and safety in the workplace, etc.).
 "G" for Governance (independence of board of directors, respect for shareholders' rights, etc.)

ESG Rating

The issuer's ESG rating: each issuer is assessed on the basis of ESG criteria and obtains a quantitative score, the scale of which is based on the sector average. The score is translated into a rating on a scale from A (highest rating) to G (lowest rating). The Amundi methodology provides for a comprehensive, standardised and systematic analysis of issuers across all investment regions and asset classes (equities, bonds, etc.).

ESG rating of the investment universe and the portfolio: the portfolio and the investment universe are given an ESG score and an ESG rating (from A to G). The ESG score corresponds to the weighted average of the issuers' scores, calculated according to their relative weighting in the investment universe or in the portfolio, excluding liquid assets and non-rated issuers.

Amundi ESG Mainstreaming

In addition to complying with Amundi Responsible Investment Policy⁴, Amundi ESG Mainstreaming portfolios have an ESG performance objective that aims to achieve a portfolio ESG score above the ESG score of their ESG Investment universe.

¹ The investment universe reference is defined by either the fund's reference indicator or an index representative of the ESG-related investable universe.
² Percentage of securities with an Amundi ESG rating out of the total portfolio (measured in weight).
³ Percentage of securities for which an ESG rating methodology is applicable out of total portfolio (measured in weight).
⁴ The updated document is available at <https://www.amundi.com/int/ESG>.

Sustainability Level (source : Morningstar)

The sustainability level is a rating produced by Morningstar that aims to independently measure the level of responsibility of a fund based on the values in the portfolio. The rating ranges from very low (1 Globe) to very high (5 Globes).

Certain sub-funds of the Funds are notified as restricted schemes under Section 305 of the Securities and Futures Act 2001 of Singapore ("SFA") and the Sixth Schedule to the Securities and Futures (Offers of Investments) (Collective Investment Schemes) Regulations 2005 ("Restricted Schemes"). This document shall be construed as part of the Singapore information memorandum of the Restricted Schemes (the "Singapore IM"), which shall be deemed to include and incorporate the prospectus of the Restricted Schemes, any supplement to the prospectus relating to the Restricted Schemes, this document and any other document, correspondence, communication or material sent or provided to eligible participants in relation to the Restricted Schemes from time to time. Accordingly, this document must not be relied upon or construed on its own without reference to and as part of the Singapore IM. Investors should read the relevant Singapore IM before deciding to invest in the Restricted Schemes. The units/shares offered under the Restricted Schemes as set out in the relevant Singapore IM are not authorised or recognised by the MAS and are not allowed to be offered to the retail public. Accordingly, this document and the material contained within, may not be circulated or distributed, nor may the relevant units/shares be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 304 of the SFA, (ii) to a relevant person pursuant to Section 305(1), or any person pursuant to Section 305(2), and in accordance with the conditions specified in Section 305 of the SFA, or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA. By accepting receipt of this document and any other document or material issued in connection with the offer or sale of the shares/units, a person (within the meaning of Singapore law) in Singapore represents or warrants that person is entitled to receive such document in accordance with the restrictions set forth above and agrees to be bound by the limitations contained herein. Distribution/dividends (if applicable) are not guaranteed unless otherwise stated in the dividend policy for the relevant share class/class contained in the relevant Singapore IM. This document and the Singapore IM is not a prospectus as defined in the SFA and, accordingly, statutory liability under the SFA in relation to the content of prospectuses does not apply, and the offeree/an investor should consider carefully whether the investment is suitable for him. The MAS assumes no responsibility for the contents of this document. This document has not been reviewed by the MAS.
