What is this product?

Type: Shares of a Sub-Fund of Amundi Funds, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: The Sub-Fund invests in exchange-traded options and variance swaps on indices of the United States, the Eurozone and Asia that have a one-year average maturity. Any assets that remain uninvested after the Sub-Fund has reached its target volatility exposure are invested in money market instruments. The Sub-Fund may invest up to 100% of net assets in these liquid investments. [br]The Sub-Fund makes extensive use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on, equities, interest rates, foreign exchange and dividend). Benchmark: The Sub-Fund is actively managed and seeks to outperform the Secured Overnight Financing Rate (SOFR) +3% Index per annum (the "Benchmark") over the recommended holding period, while offering controlled risk exposure. The Sub-Fund uses the Benchmark a posteriori as an indicator for assessing the Sub-Fund's performance and, as regards the performance fee, as a benchmark used by relevant share classes, for calculating the performance fees. There are no constraints relative to any such Benchmark restraining portfolio construction. Management process: The investment team analyses market volatility patterns to determine the direction and extent of its volatility exposure: positive exposure when volatility is low and anticipated to rise, negative exposure when volatility is high and anticipated to decline. It also seeks to benefit from short term fluctuations of volatility ("volatility of the volatility").

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period with the ability to bear losses up to the amount invested.

Redemption and Dealing: Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the Amundi Funds prospectus.

Distribution Policy: As this is a non-distributing share class, investment income is reinvested.
