Article 8 ■

Objective and Investment Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation. Seeks to increase the value of your investment over the recommended holding period. The Sub-Fund invests mainly in a broad range of equities of companies that are based in, or do most of their business in, the U.S.A. The Sub-Fund may invest up to 20% of its assets, at the time of purchase, in securities of non-U.S. companies. The Sub-Fund aims for an improved environmental footprint and sustainability profile compared to the benchmark index by integrating ESG (environmental, social and corporate governance) factors. The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities).

Benchmark : The Sub-Fund is actively managed and seeks to outperform the S&P 500 Index over the recommended holding period. The Sub-Fund is mainly exposed to the issuers of the benchmark, however, the management of the Sub-Fund is discretionary, and will invest in issuers not included in the benchmark. The Sub-Fund monitors risk exposure in relation to the benchmark however the extent of deviation from the Benchmark is expected to be material. Further, the Sub-Fund has designated the benchmark as a reference benchmark for the purpose of the Disclosure Regulation. The Benchmark is a broad market index, which does not assess or include constituents according to environmental characteristics, and therefore is not aligned with the environmental characteristics promoted by the Sub-Fund.

Management Process : The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. Using proprietary methods that have been used and refined since 1928, the investment manager analyses individual issuers to identify equities with the potential to deliver an increase in value over time, then holds these equities until expectations are realised. The Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of the Benchmark.

Risk Indicator (Source : Fund Admin)

Lower Risk

Higher Risk

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you. Additional risks: Market liquidity risk could amplify the variation of product performances. This product does not include any protection from future market performance so you could lose some or all of your investment. Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Amundi Funds prospectus.
