

July 19th 2021, Paris

We are pleased to announce that CACEIS has recently chosen Amundi Technology and its ALTO* Investment Compliance solution to ensure **trustee controls and compliance monitoring for Depository and Fund Administrator duties**. The full deployment is planned for Q4 2021 with dedicated Amundi Technology and CACEIS teams.

ALTO* Investment Compliance is a powerful and flexible solution designed for asset servicing companies covering the entire **trustee control value chain**: flexible rule coding interfaces (regulatory, prospectus or client-specific constraints), interactive breach management, 360° oversight dashboards and compliance reporting factory. The solution offered by Amundi Technology leverages core components of the ALTO* Investment platform, benefiting from the latest innovations and a continuous delivery organization.

Emmanuel Asfar, Head of ALTO* Investment Product, Amundi Technology said, *“We are delighted to deploy our ALTO* Investment Compliance solution with CACEIS. This is a great opportunity for Amundi Technology to improve and expand our range of product covering the Front-to-Back value chain and answering the Buy Side industry challenges. This project strengthens our partnership with CACEIS and demonstrates our capacity to deliver together efficient solutions to our clients.”*

Joe Saliba, Deputy CEO of CACEIS said, *“We constantly seek to improve the quality of the services we offer our clients and the ALTO* Investment Compliance module is a major step up in terms of features, flexibility and reliability. By partnering with Amundi Technology on this project, we provide our clients with the tools to enable them to limit their exposure to operational, regulatory and reputation risks, whilst providing enhanced security and value for the all-important end-investor.”*
