Alexandre Lefebvre
Head of Amundi Alternative & Real Assets

Your Trusted Partner in Global Alternative and Real Assets

By offering a wide variety of investment vehicles and making private markets accessible, **Amundi Alternative & Real Assets enables investors to fund the real economy, support their retirement planning needs, and fulfill their ESG and impact objectives.**

Amundi Alternative & Real Assets opens the doors to alternative markets through a wide investment universe including direct investments, funds of funds, and third-party manager selection, providing institutional, wealth investors and distributors with investment solutions in real estate, private debt, private equity, infrastructure, multi-manager strategies, and alternative assets, with a unique positioning that sets us apart.

As part of the Crédit Agricole Group and Amundi, Amundi Alternative & Real Assets combines the agility and bespoke approach of a smaller boutique firm with the strength and resources of a major international banking group.

A key player in the real economy driven by the ambition of collective and sustainable progress, **we enable clients' investments to support reindustrialisation, job creation and major transitions transforming them into opportunities for the future, through a large number of investment solutions.**

Amundi Alternative & Real Assets has a solid track record in the industry built over 40+ years, with €67.7bn¹ in assets under management. With 350 experts across key European hubs – Paris, London, Milan, Luxembourg, Barcelona and Zurich² – our local presence allows us to deliver tailored solutions and high-quality client-focused service.

Investing involves risks, including the risk of capital loss.

Any investment decision must take into account all the characteristics and objectives of a product.

1. Source: Amundi, as of end of March 2026.

2. Source: The list of cities includes investment hubs.

Amundi Alternative & Real Assets is the marketing name of the business line formed by several asset management companies: Amundi Real Estate, Amundi Private Equity Funds, Amundi Transition Énergétique, Amundi Alpha Associates AG.

Amundi
Investment Solutions

Section 1

Who we are

Private Assets can play a strategic role in portfolio construction:

- **Higher potential returns than public market equivalents:**
Private Assets benefit from an Illiquidity Premium estimated at 150-250 basis points¹
- **Portfolio diversification benefits:**
The traditional 60/40 Equity/Bond portfolio is made more efficient by introducing a portion of private assets, which could improve the expected risk/return profile of exposed portfolios while keeping the risk unchanged²
- **May offer protection against inflation (especially Real Estate, Infrastructure and Private Debt):**
As well as short-term market volatility
- **Impact on the real economy:**
Capital is deployed into tangible assets and companies
- **Intrinsic long-term investment horizon:**
Especially for retirement planning

2026 Capital Market Assumptions¹

¹Source: Amundi Capital Market Assumptions 2026, please refer to the official publication for more explanation around the model and underlying views generating these estimates (<https://research-center.amundi.com/article/capital-market-assumptions-2026>). ²Source: 60-40 allocation: 60% MSCI world total return in EUR, 40% global aggregate bond index hedged to EUR. Amundi Quant Solutions based on CASM model simulations • Data as of December 31, 2025. Expected returns are nominal and gross of fees, except private and alternative assets which are net of management and admin fees. US Direct Lending is considering leverage on the fund. The expected returns consider the market beta and the alternative assets risk premium. Alpha return component generated by portfolio management, strategy selection or specific value creation programs, that is significant above all for private and alternative assets, is not considered in any form. The forecast returns are not necessarily indicative of future performance, which could differ substantially. Equity exposure is represented by MSCI AC World EUR Unhedged, Bond exposure by Bloomberg Barclays Global Aggregate EUR Hedged, Private Equity and Debt by global customised benchmarks. Data from Bloomberg, MSCI, Cambridge Associates, Preqin, Pitchbook. Risk under the form of expected annualized volatility refers to an estimate of true economic risk, which for private assets is calculated from unsmoothed returns instead of reported IRRs. The latter are known for being autocorrelated and therefore not appropriate for obtaining a true representation of market risk. ³ The expected returns are referred to a 10 year period (next 10 years) and are not guaranteed. Investments are subject to capital loss and liquidity risk. Past performance is not indicative of future returns. Views are those of Amundi as of the date of publication and are subject to change. Analysis conducted in May 2026 based on a simulation.

Alternative and Real Assets at Amundi: addressing investors' needs in a disciplined framework

Institutional-grade governance supported by strong ESG capabilities:

*Providing investors with **Amundi's solid framework built on transparency, disciplined risk management, rigorous oversight, alongside established ESG capabilities***

Strategic allocation expertise and income-driven client solutions:

Aligning our investment approach with investors' growing needs for diversification and long-term savings for retirement

A hybrid model:

*Access to direct real estate, direct private markets, multi-manager strategies and strategic partnerships in a **single integrated business, offering a range of investment routes tailored to our investors' needs***

European roots and global reach, enabling us to contribute to European sovereignty:

*Anchored in Europe and connected globally, **we help support European sovereignty in capital allocation by combining local conviction with an international perspective***

Flexible structuring and customisation capabilities:

*The ability to **design and structure tailored investment vehicles to help investors access opportunities** in a way that is aligned with their objectives, constraints, and long-term investment goals*

The expected returns are not guaranteed. Investments are subject to capital loss and liquidity risk. Past performance is not indicative of future returns.

Tailor-made investment solutions addressing clients' objectives

Institutional, wealth, and intermediary investors are navigating an increasingly complex environment. They are balancing return objectives with liquidity constraints, regulatory requirements, and expectations around ESG and transparency.

At the same time, demand is growing for diversified sources of income, access to private assets, and solutions that support long-term savings and retirement outcomes.

In response, our business brings together integrated capabilities and flexible structuring to deliver targeted outcomes aligned with evolving investor needs.

Flexible structuring across all client types

- Tailor-made mandates and customised portfolios
- Broad range of vehicle formats (evergreen, closed-end, feeder/master feeder vehicles, co-investments, commingled)
- Global, thematic exposure, specialist funds etc
- Designed for scalability, regulatory alignment, and distribution efficiency
- Suitable for retirement & savings objectives

It is the investor's responsibility to ensure that their investment complies with the laws of the jurisdiction to which they are subject and to verify whether it is suitable for their investment objectives and financial situation (including tax considerations). Investing involves risks, including the risk of capital loss. Any investment decision must take into account all the characteristics and objectives of a product. Past performance is neither a guarantee nor an indicator of future performance.

Who we are

Holistic ESG Integration

Supporting resilience, alignment, and long-term value creation.

ESG at the Core of Decision-Making

ESG is embedded across Amundi's strategies, informing how capital is allocated, assets are managed, and portfolios are constructed.

This approach links investment outcomes directly to the real economy, supporting long-term value creation across market cycles.

Integrated Across Investment Strategies

In direct investments, ESG is integrated from the underwriting phase, as well as transaction structuring, with clear targets incorporated into financing.

Across externally managed strategies, ESG is embedded in manager selection, due diligence, and ongoing monitoring.

Read **Amundi Alternative and Real Assets' 2024 Responsible Investor Report and Responsible Investor Charter**

[HERE](#)

ESG is not a standalone objective, but a driver of investment quality:

- **4 to 5 star PRI ratings across all areas of expertise**

Leading ESG performance across the business

- **Lifecycle approach**

ESG applied from origination through to management to exit

- **Net Zero Alliance**

Amundi is one of the founding members of the Net Zero Asset Managers' Alliance

- **Asset & company-level application**

Direct impact on asset performance, risk, and value creation

- **ESG is part of Amundi's DNA**

And of ARA's DNA: at the fund level, and as part of the culture within the teams

Ongoing ESG, governance & risk oversight

Origination => Underwriting => Management => Exit

The decision of the investor to invest in the promoted fund should take into account all the characteristics or objectives of the fund. There is no guarantee that ESG considerations will enhance a fund's investment. Statement available on www.amundi.com

Who we are

Amundi Alternative & Real Assets' key milestones

Since 2016, Amundi has built an integrated business to expand access to private markets and real assets in a disciplined and scalable way to support diversification and multiple access routes to long-term opportunities

¹ French Alternative Energies and Atomic Energy Commission

Section 2

Real Estate

A Core Real Assets Capability Built on Scale, Discipline, & Long-Term Stewardship

Real Estate is a foundational pillar of our model and reflects decades of experience managing diversified portfolios. With significant scale and a long track record, the platform combines deep local expertise in core European markets, particularly France, Germany, and Italy, with a disciplined European investment approach.

The strategy provides multiple access routes, each designed to align with specific portfolio construction needs based on client objectives and investment horizon :

- 01 Direct ownership and mandates
- 02 Co-investments and club deals
- 03 Commingled and evergreen funds
- 04 Multi-manager solutions

Direct Investing

Private Investments in European Private Markets

Investing directly across private debt, private equity and infrastructure in Europe.

Direct investing provides exposure to private assets through expert investment teams in France and Italy, with deep sector and market expertise.

The strategies focus on selective origination and disciplined structuring where local insight enhances risk and long-term outcomes. Investments are executed with conservative assumptions, active governance, and a long-term horizon, prioritising robustness through market cycles.

- **A focus on European midcaps**
- **ESG at the core of the teams' investment processes**
- **+310 portfolio companies and 400 assets¹**

4-star¹

PRI rating for Infrastructure

A key player in decarbonisation and nature-based investing

A dual focus on energy transition infrastructure and natural capital, addressing both the decarbonisation of energy systems and the sustainable management of land-based resources. This approach combines essential infrastructure investment with long-term exposure to real assets supporting environmental transition and resilience.

Areas of expertise

01 Energy Transition

- The team manages infrastructure equity funds
- Mid-market low-carbon infrastructure assets and corporates focused on energy, transport, industry, buildings and digital across Europe
- Targeting infrastructure supporting the shift to lower-carbon energy systems
- Core and Core+ investment approach with a focus on scalable mid-market opportunities

02 Natural Capital

- Strategy covering forestry and nature-based solutions, designed to deliver exposure to tangible real assets and long-term value creation opportunities through carbon markets
- These projects help capture carbon, protect biodiversity, restore ecosystems and promote more sustainable land use
- Their long-term value is supported by biological growth, disciplined stewardship and responsible resource management, with infrastructure-like resilience and duration

Section 4

Multi-Manager Strategies and Partnerships

Diversified Access Across Indirect Strategies

These strategies bring together the business's indirect capabilities, combining global manager selection, high-quality strategic partnerships and liquid alternative funds into a single, integrated framework.

01

Multi-Manager strategies¹

Manager selection, portfolio construction, and portfolio oversight

Amundi Alpha Associates is the core of ARA's global multi-manager solutions, providing manager selection, portfolio construction and ongoing portfolio oversight across private markets. It gives clients access to specialist managers worldwide through an institutional framework built on due diligence, governance, and long-term portfolio discipline.

02

Strategic Partnerships

ICG and First Eagle: two partners who offer differentiated solutions

Strategic partnerships are used selectively where specialist expertise, product design or market access can strengthen the business's offering. ICG is one of the first major examples of this model, expanding access to differentiated private markets strategies for wealth and distribution channels, after First Eagle.

03

Alternative Funds Platform

Liquid alternatives and hedge fund capabilities

The Alternative Funds Platform provides access to hedge funds and liquid alternative strategies. It complements longer-duration private markets exposures with more flexible and liquid portfolio components. It extends the breadth of our indirect offering while maintaining the same focus on manager quality, risk control, and disciplined implementation.

¹ Amundi Alpha Associates is a multi-manager platform created in 2024 by Amundi Private Equity Funds, based in Paris, and Amundi Alpha Associates AG, based in Zurich

A Milestone Partnership with ICG: Expanding Access to Private Markets in Europe and Asia

ICG: A Strategic Partnership for Global Wealth Solutions and Distributors' Access

The partnership with ICG marks a significant milestone in our business development and represents a step change in its wealth offering.

As a leading global alternatives manager, ICG brings global origination capabilities and a strong institutional track record.

Together, Amundi and ICG are jointly developing private markets solutions tailored to wealth investors, combining education, transparency, and access.

Amundi acts as the exclusive global distributor for selected ICG strategies within the wealth channel.
