

MORNINGSTAR RATINGS

Overall Morningstar Rating™ as of 6/30/22
(out of 304 funds in the Global Large-Stock Blend Category)

Class A ★★★★★

Class Y ★★★★★

Ratings are based on past performance, which is no guarantee of future results.

The Overall Morningstar Rating™ is based on a weighted average of the star ratings assigned to a fund's three-, five-, and ten year (as applicable) time periods. The Morningstar Category identifies funds based on their underlying portfolio holdings. Classifications are based on portfolio statistics and compositions over the past three years. For funds less than three years old, category classifications are based on life of the fund. Pioneer Global Sustainable Equity Fund was rated exclusively against U.S.-domiciled Global Large-Stock Blend funds as follows: 5, 4 and 4 stars (Class A) and 5, 4 and 4 stars (Class Y) among 304, 272 and 168 funds for the three-, five-, and 10-year periods, respectively. Morningstar proprietary ratings reflect risk-adjusted performance. Ratings may vary among share classes.

FUND FACTS

Inception Date	12/15/2005
Total Net Assets (millions)	\$265.8
Net Expense Ratio A	1.15%
Gross Expense Ratio A	1.32%
Net Expense Ratio Y	0.70%
Gross Expense Ratio Y	0.97%
Total Holdings	65

Total Net Assets and Number of Holdings represent all share classes.

The Net Expense Ratio reflects contractual expense limitations currently in effect through 1/1/2023 for Class A and Class Y Shares. There can be no assurance that Amundi US will extend the expense limitations beyond such time. Please see the prospectus and financial statements for more information.

¹Effective 2/15/22, Pioneer Global Equity Fund was renamed Pioneer Global Sustainable Equity Fund.

FUND STRATEGY

Normally, the Fund will invest at least 80% of its net assets (plus the amount of borrowings, if any, for investment purposes) in securities of issuers that portfolio management believes adhere to the Fund's ESG criteria. In selecting securities, the portfolio management team focuses on companies believed to have sustainable business models.

Call 1-800-225-6292 or visit amundi.com/usinvestors for the most recent month-end performance results. Current performance may be lower or higher than the performance data quoted. The performance data quoted represents past performance, which is no guarantee of future results. Investment return and principal value will fluctuate, and shares, when redeemed, may be worth more or less than their original cost.

Performance results reflect any applicable expense waivers in effect during the periods shown. Without such waivers, fund performance would be lower. Waivers may not be in effect for all funds. Certain fee waivers are contractual through a specified period. Otherwise, fee waivers can be rescinded at any time. See the prospectus and financial statements for more information.

PERFORMANCE HIGHLIGHTS Time Period: 6/30/12 through 6/30/22

Initial Investment: \$10,000 in Class A Shares at net asset value

■ Value of initial investment with all dividends & capital gains reinvested ■ Value of initial investment
Chart is for illustrative purposes. These results represent the percentage change in net asset value per share. Returns would have been lower had sales charges been reflected.

AVERAGE ANNUAL TOTAL RETURNS (%) through June 30, 2022

	1-Year	3-Year	5-Year	10-Year	Since Inception
A Shares w/o sales charge	-10.08	10.93	7.71	9.85	6.32
Y Shares	-9.71	11.41	8.18	10.36	6.73
A Shares w/ sales charge	-15.24	8.75	6.44	9.21	5.94
MSCI World NR Index	-14.34	7.00	7.67	9.51	6.39
Mstar Global Large Stock Blend Cat. Avg.	-15.69	5.13	5.85	8.17	5.85

Performance with sales charge reflects deduction of maximum 5.75% sales charge. All returns are historical and assume the reinvestment of dividends and capital gains. Other share classes are available for which performance and expenses will differ. Performance for periods prior to the inception of Class Y Shares on 12/31/08 reflects the NAV performance of the Fund's Class A Shares. The performance does not reflect differences in expenses, including the 12b-1 fees applicable to Class A Shares. Since fees for Class A Shares are generally higher than those of Class Y, the performance shown for the Class Y Shares prior to their inception would have been higher. Class Y shares are not subject to sales charges and are available for limited groups of investors, including institutional investors.

CALENDAR YEAR RETURNS (%) through June 30, 2022

A WORD ABOUT RISK

The market prices of securities may go up or down, sometimes rapidly or unpredictably, due to general market conditions, such as real or perceived adverse economic, political, or regulatory conditions, recessions, inflation, changes in interest or currency rates, lack of liquidity in the bond markets, the spread of infectious illness or other public health issues or adverse investor sentiment. Investing in foreign and/or emerging markets securities involves risks relating to interest rates, currency exchange rates, economic, and political conditions. The Fund generally excludes corporate issuers that do not meet or exceed minimum ESG standards. Excluding specific issuers limits the universe of investments available to the Fund, which may mean forgoing some investment opportunities available to funds without similar ESG standards. The Fund is subject to currency risk, meaning that the Fund could experience losses based on changes in the exchange rate between non-U.S. currencies and the U.S. dollar. The market price of securities may fluctuate when interest rates change. When interest rates rise, the prices of fixed income securities in the Fund will generally fall. Conversely, when interest rates fall, the prices of fixed income securities in the Fund will generally rise. The Fund may use derivatives, which may have a potentially large impact on Fund performance.

*P/E refers to the price of a stock divided by its earnings per share. **Average P/E ratio (Trailing)** reflects weighted average of trailing 12-month price-to-earnings ratios of portfolio holdings.*

***Average P/E ratio (Estimated)** is the current price of a stock divided by the estimated one year projection of its earnings per share. **Market Capitalization** reflects the total U.S.-denominated portion of the portfolio. **Active Share** is a measure of the percentage of stock holdings in a manager's portfolio that differ from the benchmark index. **Turnover Ratio** is the percentage of a fund's assets that have changed over a given period, usually a year, based off of the Fund's fiscal year-end. Mutual funds with higher turnover ratios tend to have higher expenses.*

Ratings are based on past performance, which is no guarantee of future results. Star ratings do not reflect the effect of any applicable sales load. The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods.
