Boston, Massachusetts—Amundi Pioneer Asset Management today announced the declaration of dividends for five Pioneer closed-end funds for June.

Ex Date: June 17, 2019
Record Date: June 18, 2019
Payable: June 28, 2019

<u>Ticker</u>	<u>Taxable Funds</u>	<u>Distribution Per Share</u>	<u>Change From Previous Month</u>
HNW	Pioneer Diversified High Income Trust	\$0.0950	-
PHD	Pioneer Floating Rate Trust	\$0.0625*	\$0.0025
PHT	Pioneer High Income Trust	\$0.0675	-

<u>Ticker</u>	<u>Tax-Exempt Funds</u>	<u>Distribution Per Share</u>	<u>Change From Previous Month</u>
MAV	Pioneer Municipal High Income Advantage Trust	\$0.0375**	-\$0.0050
MHI	Pioneer Municipal High Income Trust	\$0.0525	-

*PHD's June per share distribution of \$0.0625 represents a 4.2% increase from the \$0.0600 per share distribution paid in May. The increase was due primarily to widening spreads in the floating rate bond market, which allowed the Fund to replace maturing and callable securities with new securities with higher yields, increasing the Fund's income. This change better aligns the Fund's distribution rates with its current and projected level of earnings and reserves.

**MAV's June per share distribution of \$0.0375 represents a 11.8% decrease from the \$0.0425 per share distribution paid in May. The decrease was due primarily to reduced yields in the high yield municipal bond market. The Fund's maturing and callable securities were often replaced with new securities with lower yields, reducing the Fund's income. This change better aligns the Fund's distribution rate with its current and projected level of earnings and reserves.

	<u>Market Price</u>	<u>Market Price Distribution Rate</u>	<u>NAV</u>	<u>NAV Distribution Rate</u>
Pioneer Diversified High Income Trust	\$14.14	8.06%	\$15.99	7.13%

Pioneer Municipal High Income Trust	\$12.11	5.20%	\$12.85	4.90%

The Market Price Distribution Rate is calculated by dividing the latest declared monthly distribution per share (annualized) by the market price. The NAV Distribution Rate is calculated by dividing the latest declared monthly distribution per share (annualized) by the NAV per share.

All funds are closed-end investment companies. PHD, PHT, MHI and MAV trade on the New York Stock Exchange (NYSE). HNW trades on the NYSEAMER.

Amundi Pioneer

ASSET MANAGEMENT

Amundi Pioneer Asset Management, Inc. is each fund's investment adviser. On July 3, 2017, the name of the adviser was changed from Pioneer Investment Management, Inc., coinciding with its acquisition by Amundi. As a result of the transaction, Amundi Pioneer Asset Management, Inc. became an indirect wholly owned subsidiary of Amundi. Amundi, one of the world's largest asset managers, is headquartered in Paris, France.

Keep in mind, distribution rates are not guaranteed. A fund's distribution rate may be affected by numerous factors, including changes in actual or projected investment income, the level of undistributed net investment income, if any, and other factors. Shareholders should not draw any conclusions about a fund's investment performance based on a fund's current distributions. Closed-end funds, unlike open-end funds, are not continuously offered. Once issued, common shares of closed-end funds are bought and sold in the open market through a stock exchange and frequently trade at prices lower than their net asset value. Net Asset Value (NAV) is total assets less total liabilities divided by the number of common shares outstanding.
