About Barron's Best Fund Families

* The 2023 Barron's Best Fund Families List ranks the active management ability of qualifying companies. Rankings are based on the asset-weighted one-year returns as of 12/31/23, excluding 12b-1 fees and sales loads, of a company's actively managed fund line up in five asset class categories: US Equity, World Equity, Mixed Asset, Taxable Bond, and Tax-Exempt Bond as determined by Barron's. Overall ranking based on aggregate, weighted score across the five asset categories. To be included, firms must offer at least three actively managed mutual funds or active exchange-traded funds in Refinitiv Lipper's general US stock category, plus one in world equity and one mixed-asset—such as balanced, or allocation fund. They also need to offer at least two taxable bond funds and one national tax-exempt bond fund. Performance data from Refinitiv Lipper.
